

**To:** Town of Glen Code Enforcement Officer, Tom DiCaprio  
**From:** Guillermo Espinosa  
**Date:** 03/12/2025

**Subject:** Submission of Updated Drawings for Glen II Solar PV Solar Project – Wetland Impact Reduction

Dear Tom DiCaprio,

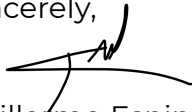

As discussed, please find attached the following revised documents for the **Glen II Solar PV Project**:

- **Wetland Impact Figures**
- **C101 (Existing Conditions Plan)**
- **C200 (Overall Site Layout Plan)**

These updated documents reflect our efforts to further reduce environmental impact by implementing CAB hangers instead of underground trenching for a majority of the array. As a result of this design adjustment, the total impact to wetlands has been reduced **from 0.13 acres to 0.05 acres.**

This modification aligns with our commitment to minimizing site disturbance while maintaining the efficiency and viability of the project. We appreciate your review and look forward to any feedback. Please feel free to reach out if additional information is needed.

Sincerely,

Guillermo Espinosa  
Project Manager - Development
